Connections

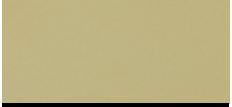

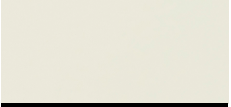

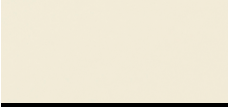

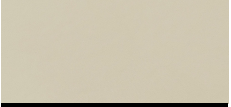

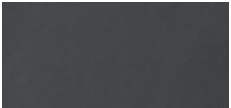

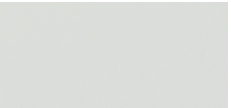

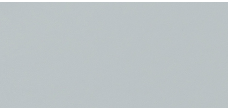

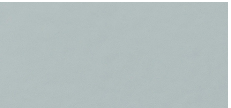

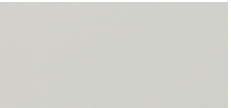

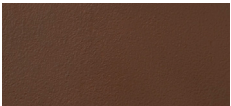

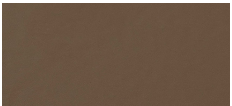

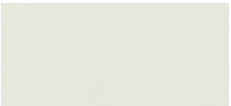

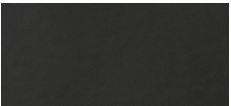

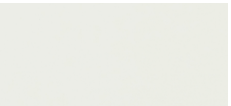

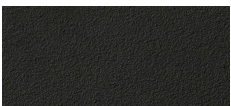

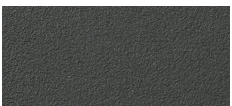

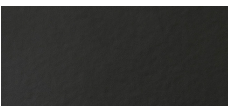

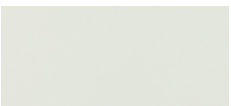

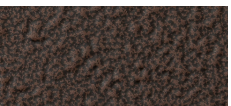

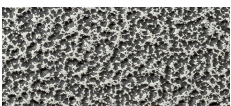

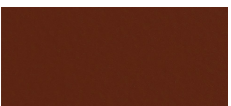

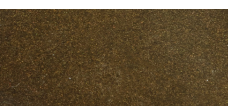

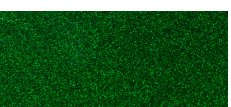

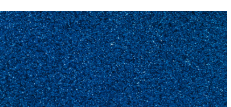

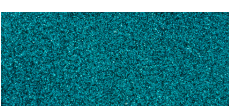

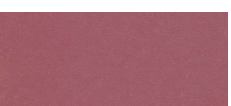

The Rossetti can be installed with BOE (bottom opposite end), TBOE (top & bottom opposite end) and TBSE (top & bottom same end). The radiators are supplied with ½" connections as standard.

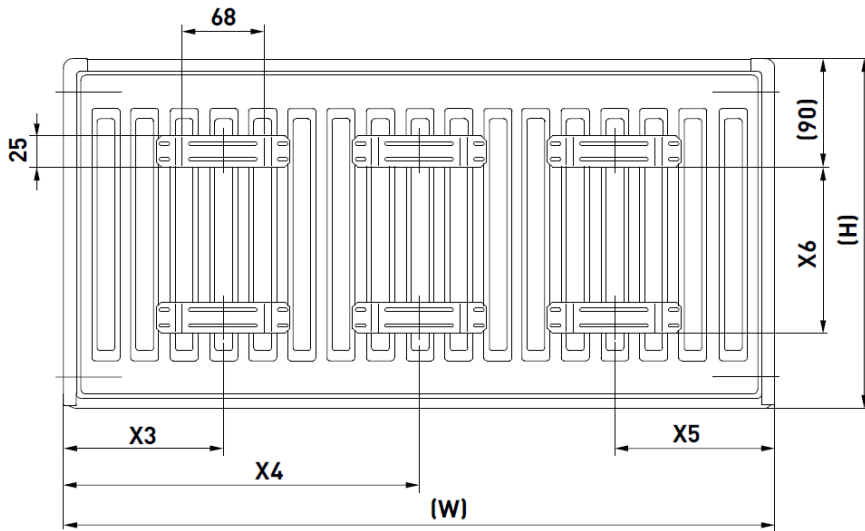

Colour and Finishes

The Rossetti is available in a selection of 53 colours and finishes. Colour is hugely important for our home's décor. We all care about the colour of our walls, so why not about the radiators that adorn them? When selecting a colour or finish we recommend that you always choose your final colour from one of our colour chips for the best representation of the colour.

Please note that due to screen resolution and manufacturing tolerances, the colour (including white) of a finished radiator may vary slightly from the colours represented on the website. We strongly advise taking the time to order one or more of our colour samples, to ensure you choose the correct colour for your room and taste. It should also be noted the finished colour of radiators may slightly vary should they be ordered and painted at different times.
